DETAILED ACTION

Allowable Subject Matter

1. Claims 1,3-8,10-28 are allowable over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

As per independent claim 1, the recited limitations pertaining to selecting pitch candidates from three separate frames, calculating a cumulative error path using the plurality of pitch candidates, and using the pitch estimate for the current frame, is not explicitly taught by the prior art of record. As per independent claim 28, the recited limitations pertaining to selecting low backward and forward submultiples satisfying the specified restraint equations, is not explicitly taught by the prior art of record.

With respect to the prior art of record, it is notoriously old and well known to use pitch information from more than one frame to derive pitch estimates. For example, As per claim 1, Yeldener (5890108) teaches generation of spectra for previous and current frames (Col. 12 lines 32-45); finding plurality of pitches for two frames (col. 12 lines 44-50); calculating pitch error throughout the frames (col. 11 lines 38-46); and calculating, selecting, and using the best calculated pitch (col. 11 line 59 – col. 12 line 15). However, Yeldener does not explicitly teach the recited claim language of claim 1, wherein the selection of multiple pitch candidates along three frames of data is not explicitly taught. Yeldener does not explicitly teach the recited claim limitations of claim 28, the claim

limitations pertaining to selecting low backward and forward submultiples satisfying the specified restraint equations. Furthermore, it would not have been obvious to one of ordinary skill in the art of speech pitch processing to modify the teachings of the prior art of record to obtain the recited limitations of claims 1 and 28, as noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
